HEALTH AND SAFETY GOALS 2021-2022

1. Establish meetings with DTA committee members to ensure communication of both Secondary and Elementary School needs.
2. Continue to provide BCTF perspective safety updates, when necessary, to support JOHS committees with their work through COVID-19.
3. Continue to maintain communication with JOHS committee representatives to ensure that the committees are functioning with monthly meetings, and that minutes are uploaded to the Health and Safety Teams Folder.
4. Make Health and Safety information, and links, available on the DTA website for members to access.
5. Continue to advocate for OHS inspections to be held during school hours, so that teaching methods are inspected for safety, as per the Act and Regulations set out by WorkSafe BC.
